## 13 AMP SOCKETS

These units are **APPROVED TO BS5733**

All units are fitted with an external earthing position and the unit comes complete with 3 metres of cable and a 13 amp plug.

The units can be bolted directly to the IMRAK verticals or alternatively can be bolted vertically to the 19" panel mounts with the use of a mounting bracket.

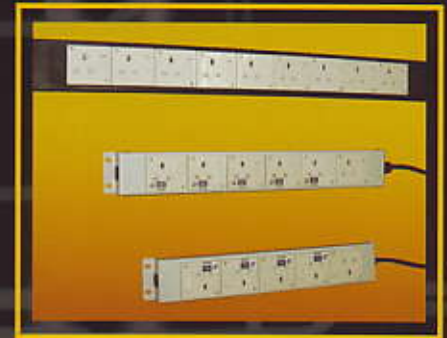

## ORDERING INFORMATION

Description	Order Code
6 way switched socket	PDU-006
9 way switched socket	PDU-009
13 way switched socket	PDU-0013
5 way switched socket 19" mount	PDU-005

PDU with Digital Ammeter (UK) is also available

## TOP FAN TRAY

Top-mounted fan tray with specific number of low noise exhaust fans is available to aid the cooling of the equipment. It occupies none of the usable U height.

## VENTED FIXED SHELF

For applications where very heavy loads are required, this shelf offers a load capacity of 100kg. Vented holes offer limited air passage and also provide simple fixing positions.

### CONTENTS OF KIT

Item/ Description	Material/ Finish
1 Shelf	1.6mm steel, painted RAL 7035

### ORDERING INFORMATION

Description	Order Code	
	600mm wide racks	800mm wide racks
385mm deep shelf	ETV 6 - 6	ETV 8 - 6
585mm deep shelf	ETV 6 - 8	ETV 8 - 8
685mm deep shelf	ETV 6 - 9	ETV 8 - 9

## SLIDING SHELVES

This sliding shelf is mounted on the panel mounting angles. It offers a load capacity of 25kg. The heavy duty version offers load capacity of 55kg.

### CONTENTS OF KIT

Item/ Description	Material/ Finish
1 Shelf	1.2mm steel, Painted RAL 7035

### ORDERING INFORMATION

Description	Order Code	
	600mm wide racks	800mm wide racks
355mm deep	ST 6 - 6	ST 8 - 6
610mm deep	ST 6 - 8/9	ST 8 - 8/9

## 19" CANTILEVER SHELVES

Cantilever shelves fix directly onto the standard 19" panel mounts. The shelves occupy 2U of panel mount height.

### APPLICATIONS

Ideal for networking applications and modem mounting.

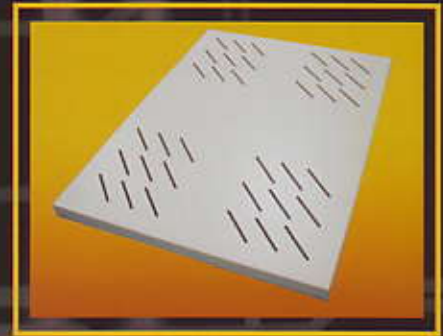

### CONTENTS OF KIT

Item/ Description	Material/ Finish
1 Shelf	1.6mm steel, Painted RAL 7035
Fixings	

Note: nominal load per shelf 20kg, mounted in centre of shelf

## HIGH TOP FULLY VENTED

High top fully vented – allows air flow through a matrix of square top holes as well as side slots.

## CASTORS

Each heavy duty castor has a loading capacity of 115kg. Available in brakes and unbraked version.

## PLINTH

Plinth kits consist of four identical corner sections and four infill sections which allow easy modification for cable entry. Adjustable feet which will align the rack on uneven surfaces can be fitted to the plinth.

## PANELS

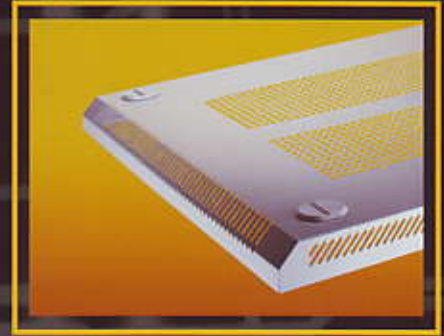

We offer a comprehensive range of panels in aluminum or steel to suit 19" mounting. In addition, ventilated panels are available to provide an inlet for racks and enclosure.

### CONTENTS OF KIT

Item/ Description	Material/ Finish
1 Front panel	3mm aluminium painted RAL 7035
1 Front panel	2mm steel painted RAL 7035

## IMRAK® CABLECONTROL

CableControl is a range of cable management, networking installations. The accessories not only aid cable installation, but also help reduce damage to cabling.

### FEATURES

- Supplied configured into IMRAK® 1400 or loose
- Contributes to your cabling installation meeting EIA/TIA-568-A for category 5
- Helps cables maintain performance for life of system
- Helps cables provide maximum data put through
- Reduces poor cable management
- Speeds up cable dressing during installation and maintenance

## CABLE RETENTION BOBBINS

The 'cable retention bobbins' have been designed to be used with the IMRAK® 1400, 800mm wide cabinet, fitted with 'reducing cable channels'.

The 'cable retention bobbins' hold the cables into the 'reducing cable channels' and control the cables bend radii when cables are taken across onto the horizontal cable management panels.

The maximum number of 'cable retention bobbins' which can be fitted onto a pair of 'reducing cable channels' is as follows:

<b>37U</b>	<b>42U</b>	<b>45</b>	<b>47U</b>
16	18	18	20

### ORDERING INFORMATION

Item/Description	Order Code
<b>1 cable retention bobbin, configured quantities only</b>	CRB-1

## WINDOW MOULDING

The 'window moulding' has been designed to be used with the IMRAK® 1400, 800mm wide cabinet fitted with 'reducing cable channels'.

The 'window moulding' clips into the apertures in the 'reducing cable channels'. This provides a smooth curved edge around the apertures through which cables can be passed.

The 'window moulding' can be used with both the 'cable retention bobbins' and the 'bayed rack cable tunnel'.

The 'window moulding' can be fitted to both the front and rear of each aperture in the 'reducing cable channel' if desired. The maximum number of 'window mouldings' which can be fitted onto a pair of 'reducing cable channels' is as follows:

<b>37U</b>	<b>42U</b>	<b>45U</b>	<b>47U</b>
28	32	32	36

### ORDERING INFORMATION

Item/Description	Order Code
<b>1 pair window moulding, configured quantities only</b>	WM-1

## CAT 5 HORIZONTAL CABLE MANAGER

19" cable management panel fitted with four 'cable retention bobbins'. The retention bobbins support and control the cable radius, as well as forming a cabling trough which alleviates the need for cable ties or Velcro ties.
